TREATING GOOD ORE.

Conditions Are Steadily Improving at the Northern Light.

Superintendent Frank Hines of the Northern Light on Lion hill, who came in Tuesday night for the purpose of voting yesterday for the perpetuation of the district schools and the maintenance of the high school, is feeling in excellent spirits over the outlook for the Northern Light mine and mill, and he states that he is now satisfied that it will not be long before the company will be able to make a creditable record in the way of cyanide production and the payment of dividends.

In speaking of the successful termination of the effort to connect the Woodraft tunnel with the lower work ings of the mine, Mr. Hines stated that will him the next three or four days he would be able to supply the mill with portion of the property, and Mr. Hines stated that will him the next three or four days he would be able to supply the mill with portion of the property, and Mr. Hines confines of the state, there would have been formed to development would have been opened for a distance of 200 feet, and further would have been formed the further information that these or four days he would be able to supply the mill with high-grande milling gold one from this portion of the property, and Mr. Hines the confines of the state, there would will make an independent fortune. It seems also, that Utah abounds in him the next three or four days he would be able to supply the mill with portion of the property, and Mr. Hines that will high-grande milling gold one from this level has been opened for a distance of 200 feet, and further would have been far that the confines of the state, there would have been far that the confines of the state, there would have been far that the confines of the state, there would have been far that the confines of the state, there would have been far and the confined the further information that high-grande milling gold one from the state of the the formed the further information that high grande milling gold one from the confined th

chuck up, so that continued progress was barred until the completion of the connection with the Woodruff tunnel.

"Still." Mr. Hines went on to say, "a good grade of ore is now being run into the mill. This comes from the Kelly pipe, which is now opened in good shape, exposing a face of mineral two and a half feet in width that carries average values of 60 ounces silver and 85.50 in gold to the ton, while in this body there is a streak of three or four inches which assays 88 ounces silver at the lowest and \$15.50 in gold to the ton. This is good leaching ore and the lead contents which showed above have entirely disappeared."

Mr. Hines states that there is no cause for the apprehension, as expressed by some of the stockholders of the company, and he reiterates his complete faith in the successful termination of the enterprise.

TWELVE MEN LOST.

The Klondike Will be No Good After This Year.

Chileago, Dec. 1.—A special from Seatile, Wash, says: A. M. Smith, writing under date of Nov. 22, from Skagnay, says:

"For the last four days there has been alarming anxiety in Skagnay over the alarming anxiety in

panying the dividend check was a printed circular amouncing the fact that on account of an overdiraft, incurred by the former management, the company and decided to pass the January dividend in order to make a clean balance sheet and also to create a surplins for future dividend accounts.

The circular was well received by business men and stockholders generally, as it exhibited the true fusiones and up-and-above-board apirit which should characterize the doings of all mining companies, and on the street nothing but commendation and good vords were heard regarding the action of the Geyser-Markon board of directors in the premises, as it is felt that hereful the company will be on a set that will insure the payment pregular monthly dividends for a long while to come.

The circular reads as follows:

The circular nanouncing the fact that hereful and the properties of the second that will be company will be on a set to be militon Lombard of New York, who was in Skaguay, en courte to Dawson City, which point he had agreed, upon \$1,500 wager, to reach without money.

map lest Friday morning. Mr. Smith, one of the mining men who is interested in the deal, returned to Denver the same day. The result of this test will be anxiously looked for by the

In Stock Circles.

The regular dealers in mining stocks and securities report having had a rushing business yesterday. In fact the business was unusually heavy for the first of the month and a general advance in prices and quotations was noticeable all along the line.

The most active stock on the curb, without any doubt, was South Swan-sea, and during the afternoon the sale

cover, while the machinery is all under ground. It is expected that the plant will be dropping stamps by the first of the year.

Richfield Advocate: The Butler Beck in Gold Mountain district, is forging to the fore. Sundary afternoon Pat Ryan. of Salt Lake City, now having charge of developments, met in Richfield W. A. Crawford who, with the Kunz boys and Hyrum Hansen, is doing the year's assessments on the group. Mr. Ryan seasments on the group. Mr. Crawford came upon a lead of fine looking quartz, blnish hued, in the Carrie winze. Mr. Ryan took specimens of this for test on his return to Zion Monday.

The recent strike on the 620 level of the Swansea was the general topic of conversation in mining circles in this city yesterday, and enough is learned from the officers of the company to confirm the report to a large extent. Besides the gold values it is stated that the silver contents of the quartz are also large and that the discovery is a most important one. In the minds of many the strike means as much for the South Swansea as it does for the Swansea, as it could not be such a share this month payable the day before Christmas.

The Tintic Leasing company, which has secured a lease on the Buckeye mine, near Diamond. In Tintic district, will begin active operations within the next few days in the active working of the property, which is equipped with a fine steam holst and pumps and as it is reported that a fine body of high grade ore was exposed in the bottom of the shaft at the time the water began to bother, it is believed that if the new company will begin regular shipments at an early date, and especially so as Will Hatfield, to whom the making of the Swansea is justly accredited, is one of the leading members of the company, and will has a record as a record that the next inco regular monthly dividends for a long while to come.

The circular reads as follows:
At a meeting of the board of directors of this company, held Nov. 22, 1897, dividend No. 7 of the regular amount of 19,000 was declared, and made payable pectal discussed the advisability of postponing the payment of this dividend. However, as the prevailing belief was that the dividend would be forthcoming, the board voted to pay it on the regular date. At the same time it was decided to announce to the stockholders, when the dividend is paid, that the "ext regular monthly dividend will be passed, for the following reasions:

Individual agreed, upon case.

"It was as impossible for the skipper to return to the harbor as it was to reach Talya, but after several unsuecessful attempts to feach cover, a landing vas made about a mile below on this side. Here H. S. Manning of Chicago, and Morse S. Duffield of Detroit, disembarked, and endeavored to persuade them to do likewise, but they refused believing they would be nable to be at back. When last seen they were being driven before the gale toward time it was decided to announce to the stock, that the "ext regular monthly dividend when he calling with a weak, nambrace of the following reasity and the payers and an and an and payers are to return to the harbor as it was to reach Talya, but after several unsuecessful attempts to feach cover, a landing with a weak, nambrace with a weak to reach Talya, but after several unsuecessful attempts to feach cover, a landing with be payed when he calling with a weak, nambrace with a weak to reach Talya, but after several unsuecessful attempts to feach cover, a landing with a weak, nambrace of the skipper of the skipper of the skipper of the skipper of the payed when he calling with a weak to the payed of the payed when he calling with a weak to restrict the to reach Talya, but after several unsuecessful attempts to feach cover, a landing with by-pamby liquid when he calling with a weak to reach cover, a landing with the payed of the payed with A disappointed man who

Frank Flaherty Has Levanted-Court Conditionally Approves of the Sale of the Ibex Property-Petition to Have a Judgment Set Aside -General Cullings.

TERS SUIT FOR DIVORCE.

Yesterday was a very quiet day in the courts. Judge Hiles' division was in session for only a short time in the morning. Judge Norrell was engaged in hearing a mining suit begun on Tuesday and Judge Cherry was in Tooele. The state supreme court, federal court and justice's courts were idle.

Suit For Divorce.

Isabella W. Horne has begun suit for divorce from Andrew Horne, alleging that the marriage took place at Evan-ston, Wyo., on Sept. 25, 1889, and that on March 1, 1896, the defendant de-serted her without cause and has re-mained away ever since.

Flaherty Has Gone.

Frank Flaherty, who was arrested last Saturday by Deputy Sheriff Levey on a charge of forging a check for \$12, on a charge or forging a check for \$12, has fled. About the time he was arrested he made good the amount of the check and was let go on his own recognizance to appear for preliminary hearing on Monday. He did not show up and diligent search on the part of the officers falled to discover his whereabouts, and it is said he has left the state.

Sale Opposed Conditionally.

In the matter of the Salt Lake Lithographing company vs. the Ibex Mines & Smelting company, a motion to con-firm the sale of the property of the de-fendant company by the receiver to W. S. McCornick was denied unless Messrs McCornick and the Sierra Nevada Lumber company should consent to pay out of the property their just and equitable proportion of the costs of the receivership, such proportion to be hereafter adjusted and ascertained.

TOLL GATE WAR.

Kentucky Militia Under Orders For Active Service.

Cincinnati, O., Dec. I .- A Frankfort, Ky., special to the Times-Star says: Judge Cherry went to Tooele yesterday, to draw a jury and open the term of court there.

Sheriff Davis of Box Elder county, was in the city yesterday, on official business.

Ky. special to the Times-Star says:

Seven companies of the Second regiment stationed here are under orders to be in readiness for active service. Colonel Galther has been confidentially notified that if there should be another outbreak against the toil gates, he will be placed in command, and will be expected to keep the troops on guard till all of the turoples interests of the all of the turnpike interests of the state are disposed of.

A. Cole against Mrs. Edmonds et al., which was begun before Judge Norrell on Tuesday, was resumed yesterday morning, and was still proceeding when court adjourned until this morning.

Transcript on appeal was yesterday filed in the supreme court in the case of the North Point Consolidated Irrigation company, appellant, vs. the Utah and Salt Lake Canal company et al.

Attorney John Lu Taylor is preparing a series of lectures on the war of the rebellion and the part he played in it. Six of the series he has completed, and is at work on the seventh. The first 22 pages of the seventh lecture were either lost or stolen from Mr. Taylor's office. Anyone finding this manuscript will confer a favor by returning it to the author.

Arthur J. Cushing has entered suit against Peter Swenson and Annie Swenson, to recover \$175 on a promissory note, secured by a mortgage.

The Surprise of All.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so sorious that physicians at Cowden and Panacould do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a hottle home, and to the surprise of all she began to get better from the first dose, and half a dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Pree trial bottles at Z. C. M. I. drug store.
